

Auto-set-aside tax money every time you get paid

For solo operators running the whole business.

Who this is for

Solo operators and one-person businesses who wear every hat â sales, delivery, admin, and support â and need leverage without hiring a department.

Spending gross revenue is how tax season becomes a crisis.

Suggested stack

Separate tax account + transfer rule on payout. Primary tools: Stripe, Wise, Bank rules.

Do this

1. Open a separate savings/tax account.
2. On each Stripe payout, move 25â35% (or your rate) to tax.
3. Automate with bank rules or a Zap + Wise.
4. Quarterly: pay estimates from that account only.

Operator tip

Talk to an accountant for your rate. The automation is the habit enforcer.
